**Displaced Bru tribals from Mizoram to permanently settle in Tripura**

New Delhi, Jan 16 (PTI): More than 10,000 displaced Bru tribals from Mizoram have started living as refugees in Tripura and the displaced Bru tribal community has been given autonomy in the Tripura North得益区.

The displaced Bru tribal community, who have been living as refugees in Tripura since 2016, have been given autonomy by the government of Tripura.

The decision was announced by the government of Tripura as part of an agreement between Tripura and Mizoram. The community has been given the opportunity to live in peace and start a new life.

**Decades of strife left Nagas underdeveloped: Rio**

Dr. R.N. Singh, the chief minister of Nagaland, has said that decades of strife left Nagas underdeveloped.

He said, "The Naga people have faced immense challenges and have experienced decades of conflict and displacement. Despite these difficulties, the Naga people have shown remarkable resilience and have made significant progress in various sectors such as education, health, and agriculture."

The Naga people have been living in a state of conflict for a long time, which has led to a lot of displacement and a lack of development. The government of Nagaland is working towards resolving the conflict and providing relief to the affected people.

**Low-key celebrations of Bhogali, people burn CAAs in mejs**

The celebration of Bhogali, a traditional festival in Nagaland, was low-key this year due to the ongoing conflict in the region. People in many areas in Nagaland have been burning copies of the Citizenship (Amendment) Act (CAA) as a protest against the government's policies.

The CAA, which was passed by the Indian Parliament in December 2019, has been a source of controversy and has led to widespread protests across the country.

**Scribes protest against harassment of reporter**

The scribes’ body has expressed concern over the harassment of a journalist by the police in Assam.

The police had allegedly opened fire on a group of journalists who were covering a protest against the CAA in Assam. The scribes have accused the police of violating their rights.

The All Assam Journalists Association (AAJA) had also expressed solidarity with the affected journalist.

**The report**

India is a land of diversity where people from different communities coexist. However, the recent events in Nagaland and other parts of the country have highlighted the need for a peaceful resolution to the ongoing conflict.

The government of Nagaland has been working towards resolving the conflict and providing relief to the affected people. Efforts are being made to provide basic amenities such as education, health, and employment to the Naga people.

The Government of India is also working towards resolving the conflict and providing relief to the affected people. Efforts are being made to provide basic amenities such as education, health, and employment to the Naga people.
The Indian rupee erased early morning gains and last quoted at 70.93 against the US dollar on Monday. Forex traders said selling of equities worth 395.24 crore from the domestic front caused the rupee to fall.

On Wednesday, President Donald Trump and Chinese Vice Premier Liu He signed trade deal at special ceremony at the White House. The two sides had reached a tentative deal. The text of the deal is: The US and China on Wednesday signed the first phase of the trade deal with the US “committing to purchase $200 billion in more goods from China” as part of a broader agreement that includes imports of high-tech goods and services such as semiconductors, medical equipment and pharmaceuticals.

Trump and Chinese officials reaffirmed their commitment to the deal reached at the meeting in Buenos Aires, Argentina, in December 2019, which included a commitment to purchase an additional $200 billion in goods from China in 2020.

Liu said the agreement was the result of two years of negotiation and that both sides were committed to following through with the terms of the deal. He added that the two sides would continue to negotiate on a broader trade agreement.

Liu also said that the US would remove tariffs on $75 billion in Chinese imports and that China would purchase an additional $200 billion in goods from the US this year.

The trade deal, considered in equal parts a major political and diplomatic victory for Trump, was hailed as a breakthrough in the ongoing trade war between the two economic superpowers.

The US and China have been engaged in a trade war since 2018, with both sides imposing tariffs on each other's goods.

The new deal, if implemented, could be a significant step towards resolving the trade war and reducing tensions between the US and China.

In the run-up to the trade deal, the US and China had announced a phase-down of tariffs, with China committed to increasing its purchases of US goods and services.

The deal also includes commitments from China to open up its market to US agricultural products, including soybeans, and to reduce non-tariff barriers to US exports.

The US also agreed to provide China with greater access to the US market for its goods and services, including through the negotiation of greater access to the US banking sector.

The deal also includes commitments from China to make changes to its intellectual property laws and to provide better protection for US firms.

The US agreed to maintain its tariffs on Chinese goods at their current levels, pending further negotiations on a broader trade deal.
Eight religious places in Hailakandi to get major facelift under Assam Doranjani scheme

On January 16, in his capacity as the President of the Indian Army, Shri C. Venkateshwar Rao, RVC, was conferred with the prestigious award for the year 2019-20 by the Governor of Assam, Shri Dharmendra Pratap Singh, in Guwahati.

The President, who is also the Chief Minister of Assam, said that the award is a recognition of the Indian Army’s dedication to the cause of national integration and development.

He further stated that the Indian Army, under the leadership of the President, has been instrumental in maintaining peace and stability in the country and that the award is afit recognition of the same.

The President also expressed his gratitude to the people of Assam for their support and cooperation during the challenging times the country has faced.

The award ceremony was attended by the Governor of Assam, Shri Dharmendra Pratap Singh, the Chief Minister of Assam, Shri Sarbananda Sonowal, and other dignitaries.

The exhibition also showcased various objects related to the Indian Army, such as medals, uniforms, and weapons, which were displayed in a manner that highlighted the contributions of the Indian Army in various fields.

The exhibition was part of a series of events organized to commemorate the 73rd Republic Day of India.

The exhibition was attended by a large number of people, who were enthralled by the display of the objects.

The exhibition was also attended by the Chief Minister of Assam, Shri Sarbananda Sonowal, who expressed his gratitude to the Indian Army for its contributions to the country.

The Chief Minister also praised the role played by the Indian Army in maintaining peace and stability in the country.

The exhibition was concluded with the presentation of various awards to the Indian Army, including the prestigious award for the year 2019-20.

The exhibition was organized by the Ministry of Home Affairs, in collaboration with the Indian Army.
Shah's claim of 52,72,000 missed calls

The Central Information Commission (CIC) has given a goahead to the Information Commissioner in the event of a citizen complaint on January 5, 2020, asking people to give a miss to information that was sent to them for the personal

The government has been told that there is a generalized slow down and to register lower growth this year.

and despite myriads of policy reforms, the growth rate is almost the same as last year surprising. This number is however

The Bangladesh government has been reluctant to step up spending on welfare programs, which would be beneficial in the long run. This is because

There's no problem with that, but for a country where the government is supposed to be representative of the people, this shows a disconnect between the government and the people. The government is supposed to be answerable to the people, but in this case, the government is not providing the necessary information to the people.

In this context, the number of missed calls is significant as it shows that the government is not responsive to the people's needs. The number of missed calls is also significant as it shows that the government is not using the people's representatives to communicate with the people.

The government has also been reluctant to provide information about the reasons for the low growth rate. The government has not been able to provide a clear explanation for the low growth rate, which has led to a lack of confidence in the government.

A Brief History of Keeping Time

Of course, the 365-day calendar we use today did not begin immediately. A calendar with 12 months was adopted in 46 BC by Julius Caesar, but it didn’t quite work as planned. Throughout the 2,000 years since, the calendar has been changed many times in attempts to approximate our current one.

The calendar we use today was adopted in 1582, by Pope Gregory XIII. The original standard, the Roman calendar, was 29 days long each month except February, which was 28 days long. This pattern began in 705 BC when the ancient Romans decided to set up a calendar of 10 months.

The decision was made because every 11 years an extra month had to be added to keep the calendar in line with the yearly cycle, which had been decided in 45 BC by Julius Caesar. He had set the length of the year to 365.25 days - the actual length of a year. A full month was 30.44 days, or 365.25 / 12.

In 207 BC, the Roman calendar was lengthened to 13 months - the equivalent of 365.36 days. But the calendar still got out of line with the year.

The Roman calendar was 29 days long each month except February, which was 28 days long. This pattern began in 705 BC when the ancient Romans decided to set up a calendar of 10 months. The calendar was 29 days long each month except February, which was 28 days long. This pattern began in 705 BC when the ancient Romans decided to set up a calendar of 10 months.

China reports first death from mystery pneumonia outbreak

WASHINGTON, Jan 16 (PTI): China has reported a death from a severe pneumonia outbreak which has raised concerns about the threat of a new SARS-like disease, health authorities said on Friday.

The world’s health authorities, including the World Health Organization (WHO), were struggling on Friday to contain the spread of a new virus that has killed one person in China, and infected at least 44 others, amid fears it could claim more lives and spread to other countries.

The outbreak, which began in the southern Chinese city of Wuhan, has triggered a wave of panic and travel restrictions, with some airlines refusing to carry passengers who have visited the area.

Most of the patients were in their 60s or 70s, said the centre’s deputy director, Liang Wannian, adding that two children under the age of 10 had been confirmed infected.

Beijing’s health authorities have so far confirmed four deaths from the new pneumonia outbreak, according to state media.

The virus is initially suspected to be a strain of SARS (Severe Acute Respiratory Syndrome), which killed hundreds of people in China and South Korea in 2002-2003, but is so far proving less deadly.

There is currently no cure or vaccine, and researchers are still trying to determine how it is transmitted.

Scientists say the virus is a novel strain of coronavirus, which is related to SARS and Middle East respiratory syndrome (MERS).

The virus has spread to 17 people in five Chinese provinces including the capital Beijing and the city of Guangzhou, the health ministry said.

Shah seeks people support to CAA: reiterates Nitis will lead NDAs in Bihar polls

NEW DELHI: India on Thursday delivered an unusually blunt response to Pakistan after it crossed the LoC near the Neelum Valley, which lacks the requisite earnest money for the respective group and will be summarily rejected without assigning any reason thereof. Noting that the meeting concluded without any outcome, Kumar said on Thursday that he had urged the Chinese authorities to refrain from taking such action in the future.

Hydrogen is the future. Combustion of hydrogen does not produce carbon dioxide, unlike fossil fuels, making it a "clean" source of energy. The researchers are even targeting running cars and bikes by hydrogen power. Considering the increased levels of air pollution globally, hydrogen can be produced in many ways. IIT-Madras is working on a method to produce hydrogen from seawater using hydrogen power.

Sindhu loses in quarters, Indian campaign ends

NEW DELHI, Jan 16 (PTI): Saina Nehwal lost to 2019 World Championship silver medallist Nozomi Okuhara of Japan in the All England Open Badminton Championship on Saturday, ending India’s hopes of winning an Olympic gold in their fourth participation.

Saina, who had reached the final round of the campaign twice, lost 21-19, 19-21, 17-21 against an in-form Okuhara.

The 2019 World Championship silver medallist sustained a slight injury to her ankle in the first game, before finding her rhythm in the second.

In the third game, Saina’s injury continued to affect her as Okuhara won.

Dana Monteil, chief umpire from the USA, was due to walk in after the third game but was unable to do so.

Saina also had to retire from her opening round clash with the Chinese Taipei’s Tai Tzu Ying this week.

The loss means that a medal at the postponed Tokyo Olympics is unlikely.

The Tokyo Olympics have been postponed due to the coronavirus pandemic.

The loss will also dent Saina’s chances of qualifying for the All England Open Badminton Championship in March, which is an important tournament for Olympic qualification.

Saina had reached the semi-finals of the Indian Open Badminton Championship in December to clinch a place in the tournament.

India were in the mix for a medal at the Tokyo Olympics, with Saina, PV Sindhu and Kidambi Srikanth all having a chance to win a medal.

The Indian women’s singles team had been a strong contender for a medal, with Saina and Sindhu both in contention for the gold.

The women’s singles matches in the All England Open Badminton Championship were scheduled to be held in Birmingham, England.

The loss means that India will have to rely on other athletes to secure a medal at the Tokyo Olympics.

The match was a tough test for Saina, who was coming off an injury and had to deal with the pressure of being one of the top players in the world.

The loss will be a blow to India’s hopes of securing a medal at the Tokyo Olympics, with the Indian women’s singles team having a chance to win a medal.

The Indian women’s singles team had been a strong contender for a medal, with Saina and Sindhu both in contention for the gold.

The women’s singles matches in the All England Open Badminton Championship were scheduled to be held in Birmingham, England.

The loss means that India will have to rely on other athletes to secure a medal at the Tokyo Olympics.

The match was a tough test for Saina, who was coming off an injury and had to deal with the pressure of being one of the top players in the world.

The loss will be a blow to India’s hopes of securing a medal at the Tokyo Olympics, with the Indian women’s singles team having a chance to win a medal.
